MARKET WAS BROAD. Gains Extended From One to Over Six

Points in Standard Shares. New York, May 12 .- With few note-New York, May 12.—With few hote-worthy exceptions, stocks of almost all descriptions moved to higher levels in today's broad market. Dealings embraced far more than the usual num-ber of issues and gains extended from

one to over six points in standard shares, being trebled or quardupled in some of the highly speculative special-The movement derived much of its impulse from an early rise in rails, Canadian Pacific leading that division with an extreme gain of 7 3-8 points on very regular trading. New Haven was next in point of strength, gaining four, largely at the expense of a short interest, while other eastern lines, as well as coalers and southern issues improved one to three points. Further activity in Cleveland, Cincinnati, Chicago and St. Louis (Big Four) common and preferred, which advanced 5 and 3 points, respectively, pointed to possibilities of increased dividends in issues controlled by the larger rall-

way systems. Mexicans were under the restraints imposed by latest developments af-fecting that country's relations with Washington, although American Smelting and Texas Company were disposed to shake off that handicap. U. S. Steel was virtually the only is-sue of importance to hold back, but was in better demand towards the close, gaining almost a point. Total sales of stocks amounted to 645,000

Inquiry for bonds expanded with the broader stock market, Canadian issues and Anglo-French 5's being among the conspicuous features. Total sales, par value, aggregated \$4,100,000.

U. S. bonds were unchanged on call.
